CENTER FOR RESOURCE SOLUTIONS

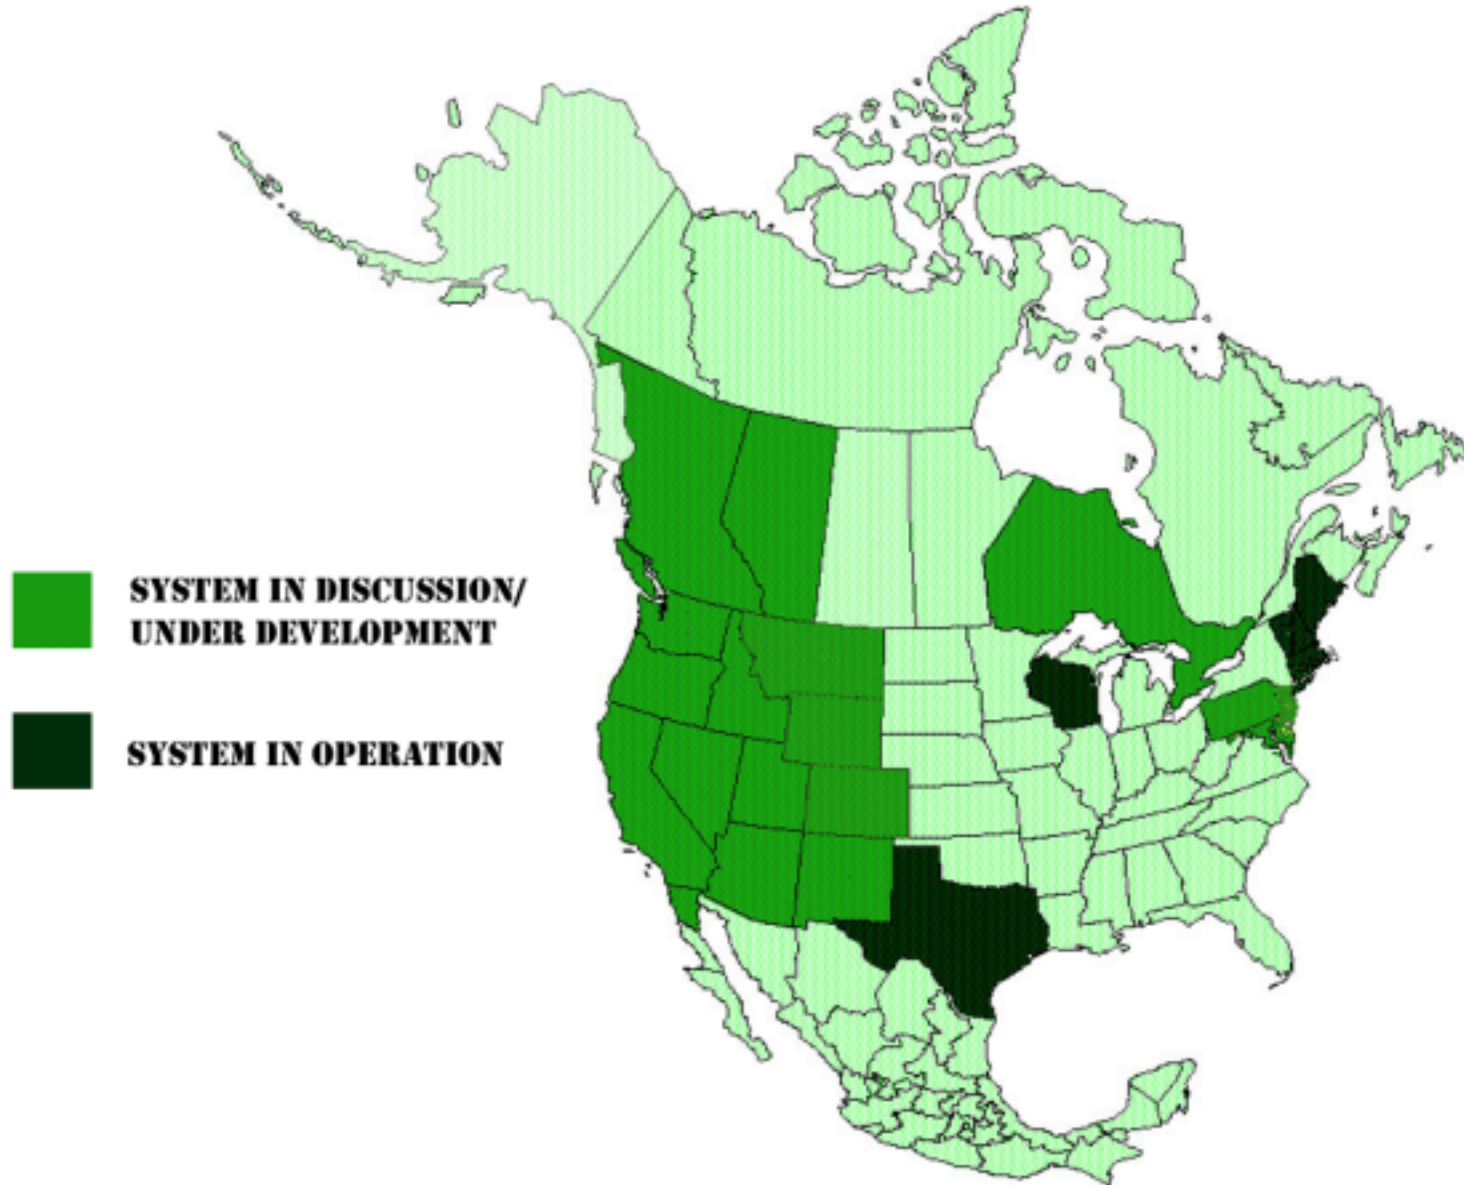

NOVEMBER 3, 2003

Center for

RESOURCE SOLUTIONS

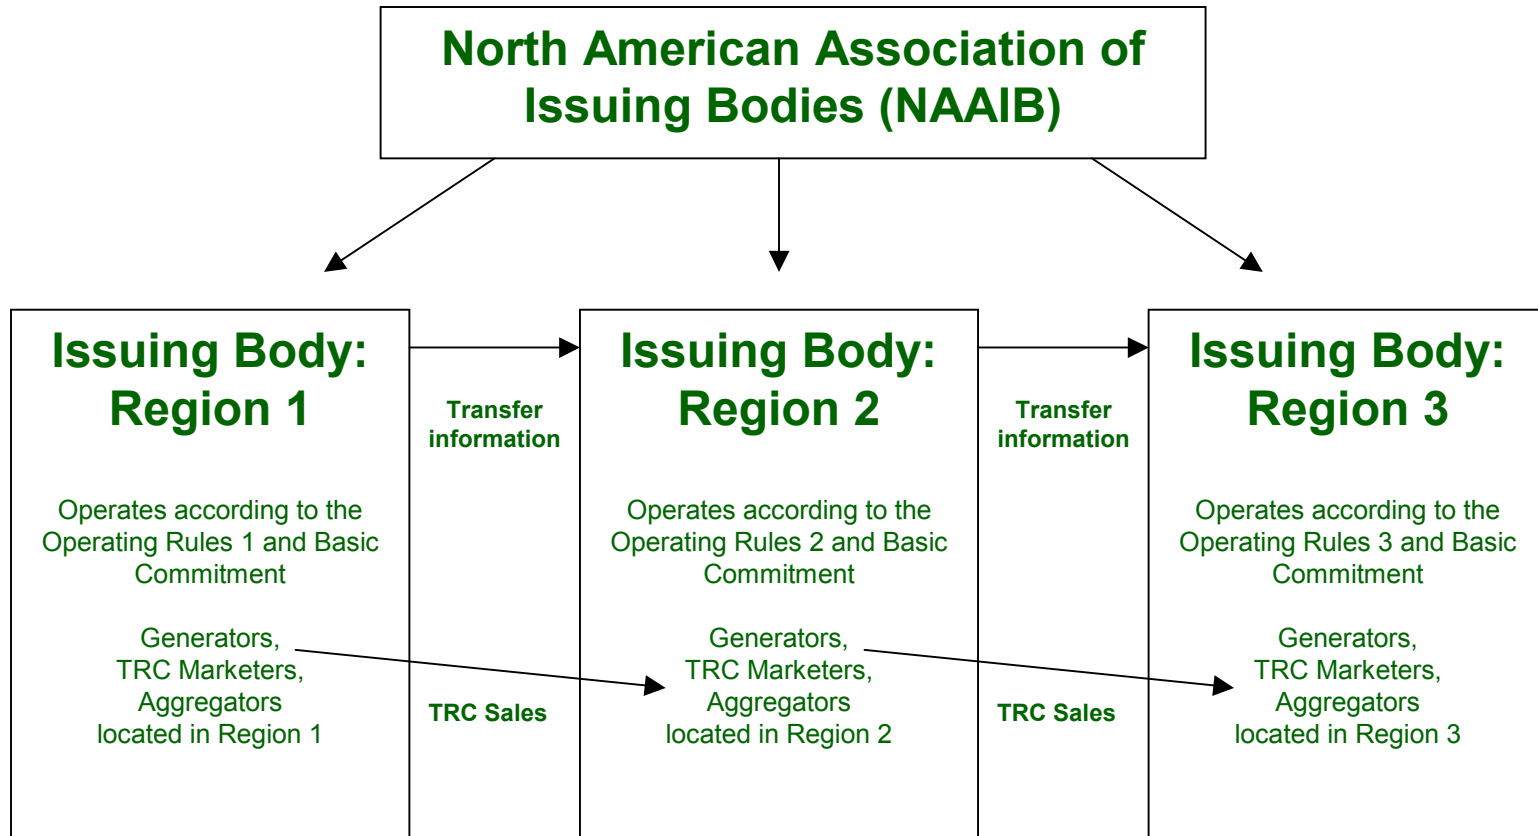

NORTH AMERICAN CERTIFICATE TRACKING SYSTEMS

GOALS AND PURPOSE OF NAAIB

- To develop minimum standards and protocols for inter-regional trading of TRCs/RECs
- To provide an institutional base for the development of North American network of renewable certificate tracking systems
- To protect consumers and TRC market participants
 - By ensuring that there is no-double counting, double-selling
 - By ensuring that RECs are “apples-to-apples” throughout North America
 - By ensuring that all tracking systems maintain a minimum level of security and data integrity

ORGANIZATIONAL STRUCTURE

ROLE OF THE NAAIB

- Lead the effort to develop minimum standards for cooperation and trade between Issuing Bodies
- Provide leadership and administrative support for sub-groups
- Encourage and support stakeholder participation in decision-making
- Create protocols for importing and exporting TRCs between state, provincial and regional certificate tracking systems in North America.
- Create governance documents, e.g. Basic Commitment
- Operate a master generator registry
